Personal Statement

I'm a computer technician, and I consider myself a very multifaceted person; I have managed to perform in various areas regardless of my preparation, by this I mean that I usually adapt quickly to the situation; for example having positive results in sales being my previous experiences null in the aforementioned niche.

By this days I'm looking to get more involved in the IT world, being my first steps focused on the Front end and at the same time getting to know other sector

Profile

- ▶ Reliable, loyal, sincere, accurate, persistent and understanding.
- ▶ Pleasant, friendly and flexible (keys to good communication).
- ▶ Self-taught, punctual and adaptable (necessary to work together).
